

Madsen Group Seminar Series—HydroPower Control Systems

April 20th, 2021 —One day complimentary customer training

Presented via Microsoft Teams

The Madsen Group is the Canadian distributor for Woodward and Eastern Canadian Distributor for Basler Electric. We offer parts, systems, integration, installation & commissioning across the country.

Madsen Seminar Series

9 AM EST

- Introduction to Madsen
- IESO Requirements
- Flex 500 Hydro Control
- Q&A
- Valves and Gateshaft Governors
- Open Discussion

ALBERTA GOVERNOR
SERVICE INC.

Hydro Controls Overview

This half-day, free MS Teams webinar is intended to give the user a good understanding of the IEEE criteria surrounding electronic hydropower controls, a walkthrough of the Flex 500 control, replacement for the legacy Woodward 505H, and an overview of common mechanical valves used in hydropower, including FC Valves and Woodward Gateshaft governors.

A Q&A session will follow the presentations.
